SUMMARY

Outstanding foreman with 25+ years of active experience, completing over 100 concrete projects all over the Carolinas. Industrious with successful commitment to high quality work and worker safety. Strategic diplomatic supervisor with expertise prioritizing projects to achieve operational goals. Detail oriented and adept with extensive knowledge of concrete and blueprint reading.

EXPERIENCE

Concrete Forman | Charlotte NC | Present
Diligently Improving team performance through consistent performance evaluations, fostering a culture of continuous improvement cultivated by a positive work atmosphere by fostering open communication, teamwork, and mutual respect among crew members, leading to higher overall morale and job satisfaction. Increased employee productivity by offering regular training sessions on industry best practices and equipment usage. Confirmed employee timecards and handled payroll of 5-person construction team. Assisted crew members with positioning trucks and moved discharge chute to guide concrete into forms, provide hands-on guidance in various concrete techniques and reinforcing their knowledge of industry standards. Documented construction and extraction workers' hours, wages and other pertinent information. Managed budgetary constraints while maintaining high quality output, demonstrating financial responsibility without sacrificing craftsmanship. Established strong relationships with suppliers, ensuring timely delivery of materials at competitive prices. Measured precise amounts of concrete and verified levelness to improve quality of finished product. Created specific finishes on poured concrete. Routinely lifted and moved items weighing up to 80+ pounds. Mixed, spread, and patched concrete to specifications. Applied concrete fabrication techniques to achieve desired project specifications, quality, and code standards. Adapted concrete pouring and mixing plans to daily weather and climate.
